

Ohio Soybean Council

Current fiscal year
checkoff investment
in production research

\$815,000

TOP RESEARCH FUNDING AREAS

- Breeding for Pest/Disease Resistance
- Developing Varieties That Create Premium Opportunities
- Monitoring and Managing Diseases and Pests
- Developing Best Management Practices for Nutrient Management, Soil Health and On-Farm Profitability
- North Central Soybean Research Program

RECENT INNOVATIVE RESEARCH PROJECTS

- New Technologies Providing Automated Diagnostic Tools for Disease, Pest and Weed Management
- Innovative Genetic Techniques to Speed Up Development of New Soybean Varieties
- New Diagnostic Tools for Farmers to Analyze Soil Health

TOP THINGS FOR FARMERS TO KNOW ABOUT CHECKOFF DOLLARS INVESTED IN RESEARCH

The Ohio Soybean Council invests in research that provides technologies and information that will increase profit opportunities for Ohio farmers. Through basic and applied soybean research the long-term goals are to protect and increase yield, to provide understandable and usable data to farmers, and to inform them of best management practices to ensure the economic well-being of their operations. Our investment helps develop the next generation of soybean researchers to help Ohio farmers realize their potential in the future.

TOP AREAS OF RESEARCH CRITICAL TO THE FUTURE OF OHIO'S SOYBEAN PRODUCTION

- New Varieties to Maintain Markets and Support New Uses of Soybeans
- Nutrient Management and Soil Health
- Weed Management
- New On-Farm Technologies and Their Use to Identify Emerging Disease, Pest, Weed and Climate Stresses

Sweet Success

**ONE OF THE BIGGEST
SUCCESS STORIES IN
OHIO AS A RESULT OF
RESEARCH**

After 25 years, new and updated fertilizer recommendations for nitrogen, phosphorus and potassium have been published and are available to farmers.
