

South Carolina Soybean Board

Current fiscal year
checkoff investment
in production research

\$98,500

TOP RESEARCH FUNDING AREAS

- Soybean Production

RECENT INNOVATIVE RESEARCH PROJECTS

- Exploring the Differences in Gene Expression of Drought Sensitive and Drought Tolerant
- Genotypes Using RNA-Seq
- Evaluation of Detergents as a Means of Suppression of Deer Feeding Injury to Soybeans

TOP THINGS FOR SOUTH CAROLINA FARMERS TO KNOW ABOUT CHECKOFF DOLLARS INVESTED IN RESEARCH

The goal is to increase the profit potential of all South Carolina soybean farmers through checkoff-funded research. We constantly request feedback and input from farmers so we can ensure we address concerns across the state and well beyond the 12 farmer-leaders on our board.

TOP AREAS OF RESEARCH CRITICAL TO THE FUTURE OF SOUTH CAROLINA'S SOYBEAN PRODUCTION

- Variety Selection and Development
- Herbicide-Resistant Weeds
- Technological Controls

Sweet Success

ONE OF THE BIGGEST SUCCESS STORIES IN SOUTH CAROLINA AS A RESULT OF RESEARCH

The South Carolina Soybean Board has funded an Asian Soybean Rust (ASR) monitoring project for a number of years. It allows us to be proactive rather than reactive if we face ASR.
