

Texas Soybean Board

Current fiscal year checkoff investment in production research

35% of checkoff funds

TOP RESEARCH FUNDING AREAS

- Insect Control
- Plant Pathology Focused on Iron Chlorosis
- Soybean Variety Evaluation
- Southern Soybean Research Program
- Mid-South Soybean Board Research Program

RECENT INNOVATIVE RESEARCH PROJECTS

- Evaluation of Public and Private Soybean Varieties for Texas Environments
- Stink Bug Management in Soybeans

TOP THINGS FOR FARMERS TO KNOW ABOUT CHECKOFF DOLLARS INVESTED IN RESEARCH

The Texas Soybean Board is dedicated to using the soybean checkoff to fund research projects applicable to Texas soybean farmers. Funded projects aim to provide farmers with cutting-edge research they can use to better manage their soybeans and increase yields. For example, variety evaluation provides relevant local data about suitability to environmental conditions in key Texas regions.

TOP AREAS OF RESEARCH CRITICAL TO THE FUTURE OF TEXAS SOYBEAN PRODUCTION

- Variety Selection and Development
- Herbicide-Resistant Weed Management
- Technological Control

“The Texas Soybean Board uses producer checkoff funds for production research and market promotion to improve the soybean industry in Texas. Our research efforts are focused on improving production yields, quality and sustainability for Texas producers.”

— Texas soybean farmer
Daniel Berglund
