

New Jersey Soybean Board

Current fiscal year
checkoff investment
in production research

\$18,500

TOP RESEARCH FUNDING AREAS

- Insect Control
- Biodiesel and Bioheat

RECENT INNOVATIVE RESEARCH PROJECTS

- Survey and Monitoring of the Mexican Bean Beetle Population for Biological Control using the Parasitic Wasp, and Survey for Brown Marmorated Stink Bug and Kudzu Bug in Soybeans
- Soy Protein Skin Wound and Burn Dressing

TOP THINGS FOR FARMERS TO KNOW ABOUT CHECKOFF DOLLARS INVESTED IN RESEARCH

The New Jersey Soybean Board invests in production research, especially challenges unique to the state. The checkoff fosters relationships between public and private sectors to support development of new technology and improvement of New Jersey soybean production. Other research support regional uses and market development, like biodiesel and bioheat. All research investments focus on areas that are key to improving your bottom line.

TOP AREAS OF RESEARCH CRITICAL TO THE FUTURE OF NEW JERSEY'S SOYBEAN PRODUCTION

- Opening New Markets
- Biological Pest Control

“We invest in research to make soybeans more valuable to farmers and to improve soybean production. Checkoff-funded research protects farmers’ investments in soybean production and aids the agricultural community as a whole. Any variable in farming that we can remove or help manage is a huge plus.”

– New Jersey soybean farmer Fred Catalano
